Towards a Stronger and Better Future

Without exception, we all led disrupted lives in 2020-21. Our plans – small and big – somewhat missed the timelines owing to the unsettling nature of the Covid-19 pandemic.

But what came out of the year so demanding was our natural crisis-handling skills, resilient nature to browbeat sudden trials and the ability to identify long-term prospects.

We are now persistently focusing on growing our product portfolio, expanding our reach, and reinventing our business model to support our strengths in our stride Towards a Stronger and Better Future.

About Us

Chemcon Speciality Chemicals Limited ('Chemcon' or 'the Company' or 'we' from hereon) is a leading manufacturer of specialised chemicals.

Incorporated in 1988, Chemcon's products are used in the pharmaceuticals and oilfield industries. With an experience of more than three decades, the Company is one of the reliable partners for completion brines and the largest manufacturer of calcium bromide in India.

Chemcon's expertise extends in the manufacturing of Hexamethyldisilazane (HMDS) enabling it to become the only player in India, and Chloromethyl Isopropyl Carbonate (CMIC), which makes it the largest player in India.

Chairman's Address to Stakeholders

We have seen tremendous growth and acquired strategic and valuable assets to enrich our portfolio, further turning them around with the help of our competent and dedicated people, who have always supported the management in achieving the vision of a world-class chemical company

Dear Stakeholders,

I hope you are better and have vaccinated yourselves against the ongoing Covid-19 pandemic.

It gives me profound satisfaction to present to you the first Annual Report of Chemcon post the successful initial public issue and listing (IPO). This is surely a milestone in our corporate strategy, and I place on record my gratitude to all the shareholders for their overwhelming response to our IPO and for reiterating their faith in our long-term growth story. Regardless of the fact that we are a well-established player in the specialised chemical space, we believe this move will provide us the right platform to take our brand to greater heights.

Despite our three decades' rich experience, we still feel we are commencing our journey towards a Stronger and Better Future. This journey looks even more brighter and promising.

With Covid-19 dominating 2020-21 and testing the resilience of our business model, we feel we have come out winning, grossing greater confidence and humility. Though as an event of global scale, the

pandemic forced us to pause, review emerging trends and prepare ourselves to build a future-ready organisation. I feel today we are more matured and at a stage where we are ready to experiment and witness the outcomes.

As a responsible corporate, we adhered to the Government guidelines to contain the spread of the virus. We have seen many ups and downs, but our nimble footedness helped us steer clear of sudden crisis.

We exited the year with:

₹ **243.48** Crores [-7%]
 Revenue

₹ **81.12** Crores [+15%]
 EBITDA (Earnings Before Interest, Taxes, Depreciation, and Amortisation)

₹ **56.39** Crores [+15%]
 PAT (Profit After Tax)

Initially, we were into different chemicals and small volume chemicals. During early 2000, we entered into the business of HMDS, which was again started with a small volume, but we gradually added a few other products such as CMIC (Chloromethyl Isopropyl Carbonate) and various bromides over a period of time. Today, we are a leading manufacturer for products such as HMDS, CMIC and inorganic bromides.

Exploring New Applications

We aim to expand the sale of our products to other industries where they have application. For HMDS, we aim to market our products for end-use applications in other industries, including rubber and semi-conductor manufacturing. For this, we have commissioned a plant to produce high purity HMDS, which finds usage in the semi-conductor industry.

Capacity Expansion

We intend to build two additional plants with a total volumetric reactor capacity of 251.00 KL. These additional plants shall be utilised for the manufacturing of chemicals, which are principally used in pharmaceutical industry. With the expansion, the capacity at the manufacturing facility shall increase from 374.85 KL to 625.85 KL, and shall enable us to significantly benefit from economies of scale.

People Power

Over the years, we have built technical expertise to handle our diverse chemistries. Some of the raw materials that we use such as bromine, Methyl Chloroformate, Trimethyl Chlorosilane are highly toxic and equally corrosive. Therefore, handling these chemicals require high degree of technical skills, experience and expertise. Our combination of skilled manpower and technology has the capability to efficiently manufacture these chemicals. Our dedicated manpower, which understands the importance of technology, is determined to develop innovative solutions. We have the technology that meets the global standards. Going ahead, we shall continue to explore newer avenues of growth. Our continued business with some major MNCs is a testimony to our proficiencies.

Industry Megatrends

India is net importer of HMDS and CMIC with about 40% and 62% of India's current domestic demand being catered by imports for HMDS and CMIC respectively. We are the only manufacturer of HMDS in India and the

largest manufacturer of CMIC in the country in terms of production in calendar year 2019. We aim to capitalise on the potential growth in the demand of CMIC and HMDS in India and substitute imports.

While the pandemic did disrupt businesses across layers, it also brought in several industrial opportunities. The Indian Chemical Industry is poised for an exponential growth over the next few years owing to favourable factors such as:

- Increasing preference of global players towards considering India as an alternate source of supplies
- Stringent measures and environment norms have eliminated small companies in China, which is further diverting the demand to India
- Government's endeavours towards reducing India's dependency on chemical imports and launch of ambitious initiatives such as Atmanirbhar Bharat (self-reliant India) will further encourage domestic players

Closing Thoughts

In the past few decades and particularly in the last year, we have proven that our fundamentals are intact to support the strong growth prospects. Over the years, we have built a highly resilient and diverse business with a strong foundation. The broadness of our portfolio allows us to serve a wide range of markets and application areas. As a leading player, we have also developed the agility needed to compete in today's demanding markets as well as the ability to respond swiftly and effectively to fluctuations in demand.

Today, when I look back on the path we travelled, it gives me a sense of pride and confidence in our strong and diverse team, which is capable of handling any challenges. It is this pride of working with such an illustrious team that drives us every day as we work to honour our stakeholders' faith and investment in us.

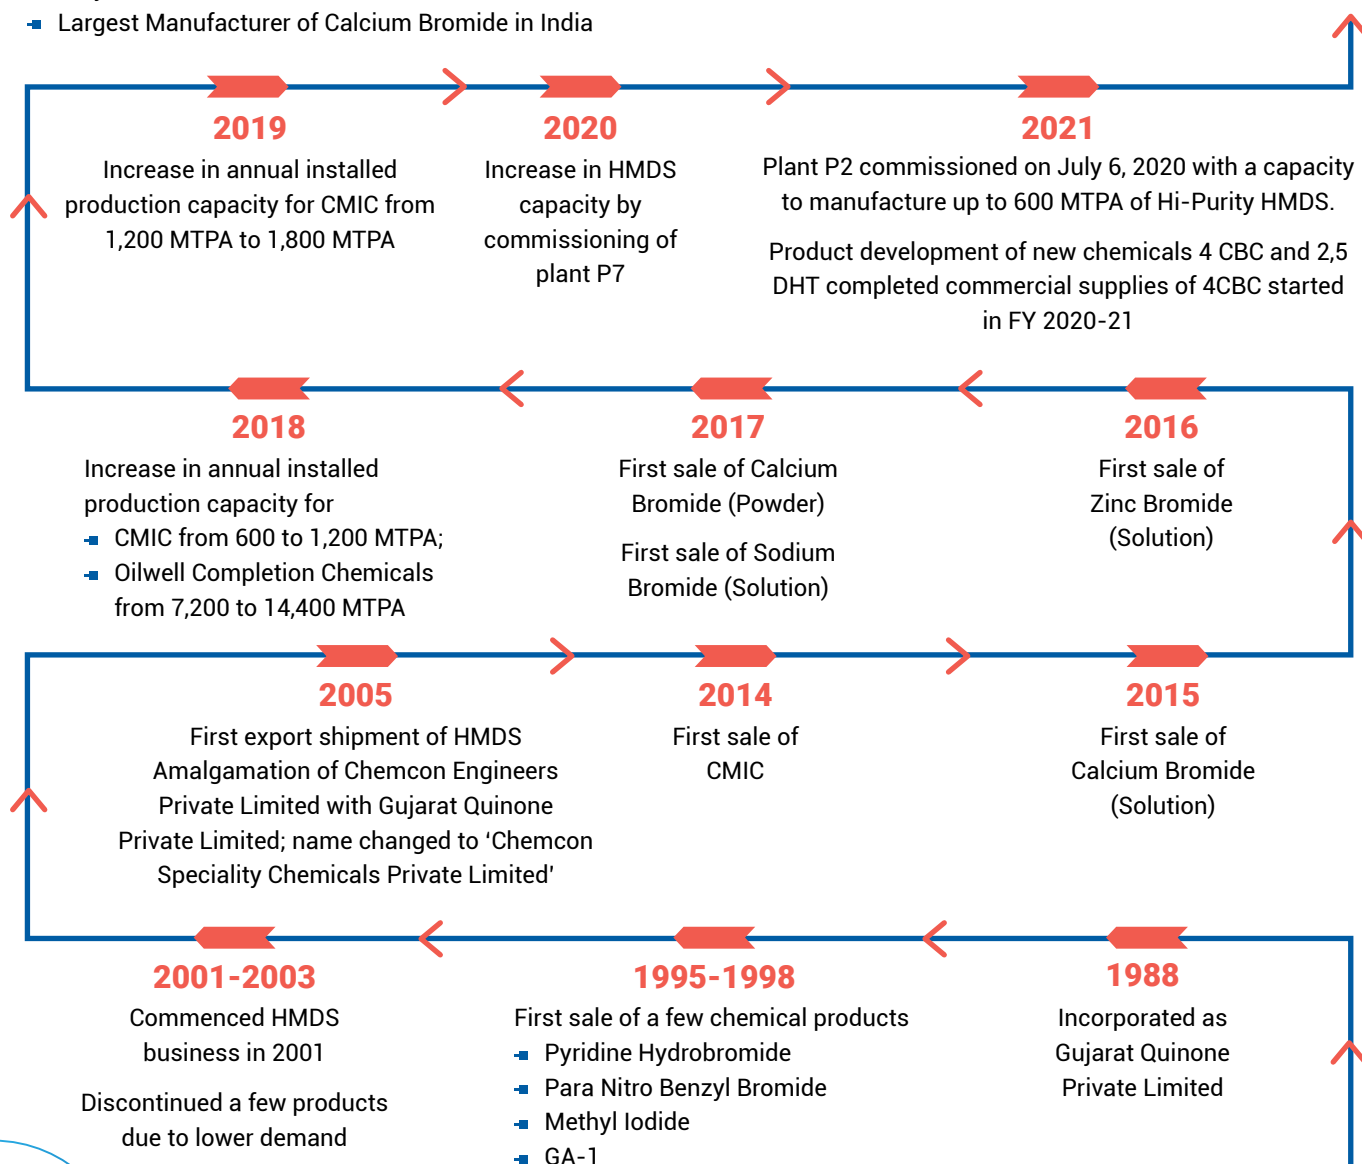

I would like to thank our customers, suppliers and other partners for their continued faith in our capabilities and helping us in improving our processes and in advancing ourselves into a world-class company. I thank my fellow Directors, senior leadership team and stakeholders for their continued support and faith in our vision and helping us drive success. We welcome 2021-22 with new aspirations. Stay safe and healthy, we are all in this together.

Warm Regards,
Kamalkumar Rajendra Aggarwal
 Chairman and Managing Director

Journey Towards Better Future

With profound faith in its abilities to tap future growth, Chemcon has acquired many strategic and valuable assets to enrich its portfolio. The acquisitions have helped it spread its wings across geographies, new applications and customers, along with delivering enhanced earnings that have benefitted its shareholders. In the past decade, Chemcon pursued its search for high-value-adding applications with a clear focus on strategic goals of creating long-term value and maximising total shareholder return. Since 2019, Chemcon is the:

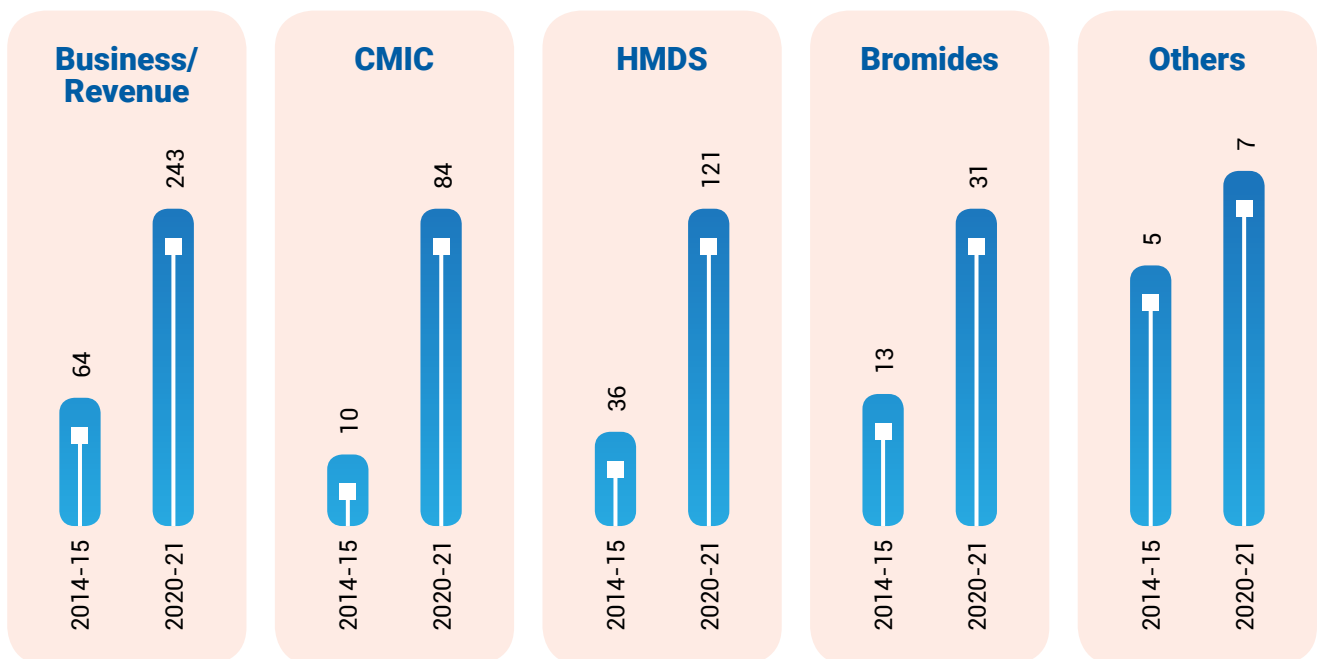

- Only Manufacturer of HMDS in India
- 3rd Largest Manufacturer of HMDS Worldwide
- Largest Manufacturer of CMIC in India
- 2nd Largest Manufacturer of CMIC Worldwide
- Only Manufacturer of Zinc Bromide in India
- Largest Manufacturer of Calcium Bromide in India

Management Discussion & Analysis

Economic Overview

Global Economy

The Covid-19 pandemic crippled the global economy in 2020-21, leaving little chance to recover because the fiscal prior to it wasn't too sound as well for most nations. The pandemic-forced lockdowns, and social-distancing norms nabbed the growth momentum, further stalling it over the fiscal.

Indian Economy

The Covid-19 pandemic had such an overbearing effect on the Indian economy that it witnessed contraction in Gross Domestic Product (GDP) for the first time since

Independence. Calibrated fiscal and monetary support was provided, cushioning the vulnerable during the lockdown and boosting consumption and investment during the unlocking. This monetary policy ensured abundant liquidity and immediate relief to debtors, while unlogging monetary policy transmission. India's GDP due to pandemic contracted by 23.90% in Q1 and 7.50% in Q2 of 2020-21. As the first wave of Covid-19 pandemic eased out and the economy slowly opened up, India's GDP grew by 0.40% YoY in Q3 and 1.6% YoY in Q4. This was mainly attributed to improvement in consumer spending, Government capital expenditure and expansion in construction sector.

Outlook

Multiple vaccine approvals and the launch of an aggressive inoculation drive in many countries raised hopes of a better sail through the pandemic waves. The World Economic Outlook forecast suggested stronger-than-projected momentum on average across regions in the second half of 2020. The sizable fiscal support announced for 2021 in some countries, including United States and Japan, boosted economic activities among the advanced economies.

With respect to Indian economy, the larger-than-expected magnitude of Covid-19 second wave posed a serious threat to the faster recovery of economic activities. As of now, the outlook is hazy and will largely depend on how the different waves pan out. With the Covid-19 second wave starting to wane and availability of sufficient number of vaccines from September 2021, growth in second half of 2021-22 is likely to pick up. The Indian GDP is expected to grow around 10% in 2021-22 with the Reserve Bank of India expected to continue with its accommodative stance.

Industry Overview

The domestic consumption for chemicals used as pharma intermediates is dependent upon bulk drugs manufacturing (domestic consumption as well as captive consumption by integrated players). Majority of large bulk drug players are forward integrated through presence in formulations as well. However, backward integration for large players through intermediates manufacturing is limited. The players in chemicals used as pharma intermediates domain mostly have footprints in specialty chemicals, which are supplied to the pharmaceutical sector in addition to other sectors. CRISIL Research estimates that the domestic consumption of chemicals used as pharma intermediates remained at ~322 Billion (~USD 4.9 Billion) in fiscal 2019, witnessing ~7% CAGR since fiscal 2013. During the same period, bulk drugs production (including exports) also witnessed ~7% CAGR.

Import of chemicals used as pharma intermediates to India

The share of imports in domestic consumption has dropped from ~65% in fiscal 2013 to ~58% in fiscal 2019. The drop in imports is majorly due to expiry of patents and withdrawal of customs duty exemption on drugs and intermediates in fiscal 2017. China dominates the import of bulk drugs and intermediates. Large manufacturing units of China have economies of scale,

supplying to several countries at a lower cost. The API/intermediates industry gets support from the Government through export subsidy. Moreover, the cost of electricity is cheaper in China, which helps it to maintain a cost advantage particularly in fermentation-based products, which have higher electricity requirements. However, an analysis of chemical exports from China shows that there has been a decline in exports from China in the past two-three years. Tougher regulations on pollution-causing industries have impacted the chemicals sector in China adversely.

Export of chemicals used as pharma intermediates from India

Exports (in value) recorded ~10.1% CAGR between fiscals 2013 and 2019. Indian intermediates players' export competitiveness can be attributed to their greater expertise in specialised intermediates as compared with traditional intermediates. Indian players, with better process chemistry skills, have relative advantage in custom synthesis, intermediates for drug discovery and contract manufacturing.

India overall market of chemicals used as pharma intermediates (₹ Billion)

Source: CRISIL Research, Frost & Sullivan Analysis

The India market of chemicals used as pharma intermediates includes domestic consumption and exports. The overall market of chemicals used as pharma intermediates is anticipated to record 7-9% CAGR over the five-year forecast period.

Opportunities for growth of domestic manufacturers are:

- Government initiatives such as bulk drugs parks focusing on streamlining the pharmaceutical industry
- Programmes such as Jan Aushadhi Scheme: Private players can participate in such schemes through competitive tenders and use their operational GMP compliant sites to supply medicines
- Shut down of Chinese chemical plants due to environmental concerns

Oil well completion chemicals markets overview

The global market of drilling and completion fluids is growing rapidly due to increased oil & gas exploration activities around the world. The high demand for crude oil, along with the maturing of onshore oil and gas wells is fostering the growth of drilling and completion fluids market. Moreover, factors such as continuous development of offshore reserves and rising deep water production are likely to influence the growth of the global drilling and completion fluids market positively. The global clear brine fluids market was valued at about USD 860 Million in 2019, and it is anticipated to witness a CAGR of slightly above 5% between 2020 and 2023.

The global clear brine fluids market can be segmented on the basis of products into potassium chloride, calcium chloride, sodium chloride, potassium bromide, sodium bromide, calcium bromide and others. The oil & gas sector is expected to be the most dominating end-user of the global clear brine fluids market, and it is expected to keep this trend over the estimated period.

North America accounts for ~65% of the total clear brine fluids market and it is expected to witness a significant growth in the forecast period. The Government is increasing its energy security, which will enhance the business growth for the region's market.

Asia Pacific accounts for ~15% of total clear brine fluids market and it is likely to witness robust growth for clear brine fluids due to the presence of a number of shale reservoirs in the region. Also, drilling activities in India and China are boosting the growth of the clear brine fluids market.

The Middle East & Africa is a major region for the oil & gas industry. The region has large oil & gas reserves in regions such as Libya, Syria, Egypt and others. The large presence of oil & gas reserves has augmented the growth

of the market in the region. Latin America is expected to witness a moderate growth over the years owing to the emerging markets especially in countries such as Brazil, Argentina and others in the region.

Some of the major players operating in the global clear brine fluids market are Israel Chemicals Ltd., Albemarle Corporation, Chemtura Corporation (acquired by LANXESS), TETRA and others.

Opportunities

India: An Emerging Space

In recent years, production-related disruptions in several chemical industries in the Chinese market due to strict environmental norms, has boosted the outlook for Indian companies. Increased environmental compliance costs, rising manpower wages, and reduced state support, have improved the cost competitiveness of Indian manufacturers. The momentum of shift from China is likely to accelerate in the backdrop of the Covid-19 pandemic, and it is expected to benefit Chemcon.

Formalisation

The organised segment having backward integration, along with strong compliance to global environmental laws, will have a stronger competitive edge to leverage the growth opportunities.

Threats

Rising Competition

The chemical industry is highly fragmented, competitive and cyclical. The Government has allowed 100% FDI in the chemical sector, which is encouraging stiff competition from foreign multinationals, and is exerting price pressure on domestic companies.

Shortage of raw materials

The raw materials or feedstock used in the organic, as well as the inorganic chemical industry, are not quickly accessible in the market. The chief feedstock like naphtha and natural gas are accessible at a very eminent cost in India as contrasted to other nations like the Middle East, China, and other South East Asian countries. This shortage of feedstock makes India uncompetitive in the worldwide chemical market.

Complicated Regulatory problems and high tax rates

The massive duty tax imposed on several raw materials exceeds the taxes levied on ready-made products. This disappoints India's chemical industry and supports the import of similar chemicals due to the negligible taxes.

Company Overview

We are a manufacturer of specialised chemicals such as HMDS and CMIC, which are predominantly used in the pharmaceuticals industry (the "Pharmaceutical Chemicals"), and inorganic bromides, namely Calcium Bromide, Zinc Bromide and Sodium Bromide, which are predominantly used as completion fluids in the oilfields industry (the "Oilwell Completion Chemicals"). In calendar year 2019, we were the only manufacturer of HMDS in India and were the third largest manufacturer of HMDS worldwide in terms of production (Source: Frost & Sullivan Report). We were the largest manufacturer of CMIC in India and the second largest manufacturer of CMIC worldwide, in terms of production and capacity in calendar year 2019 (Source: Frost & Sullivan Report). Further, we were the only manufacturer of Zinc Bromide and the largest manufacturer of Calcium Bromide in India, in terms of production in calendar year 2019 (Source: Frost & Sullivan Report).

Our Strengths:

We are a leading manufacturer of Pharmaceutical Chemicals globally

We are a leading manufacturer of Oilwell Completion Chemicals in India

We have a healthy financial track record with a strong financial position

We have manufacturing facilities with dedicated plants for our products

We have a diversified customer base coupled with long-standing relationships

We operate in the speciality chemicals industry, which has high entry barriers

We have an illustrious and experienced senior management

Operational and Financial Overview

Our manufacturing facilities are located at Manjusar, about 10 kms on the outskirts of Vadodara in Gujarat. Within our manufacturing facilities, we currently have seven individual operational plants, along with warehouses for storage of our products and raw materials. We also have in-house laboratory to test raw materials procured and the products at various stages of the manufacturing process.

We are enhancing our manufacturing capabilities of pharma intermediate chemicals, which will further increase our strength for the existing product portfolio as well as for added products. Due to the second pandemic wave, the project commercialisation has been delayed. Products added in these two units will be a mix of new as well as old products. We will be adding a few more capacities of CMIC and other new products catering to high demand in the domestic market.

We have a track record of operations of over two decades and have a strong balance sheet with stable cash flows. We have experienced sustained growth in various financial indicators, including our revenue and PAT. We have also seen consistent improvement in our balance sheet position in the last three fiscals, wherein we have witnessed an increase in our net worth.

The table below sets forth some of the key financial indicators for and FY20 and FY21 YoY basis:-

8	Net Profit Margin (%) (PAT)	23.16%	18.64%	24.25%	No Significant Change

We believe that we have been able to maintain and improve our financial performance by regular capacity augmentation, diversification of our customer base and optimising costs of sourcing raw materials and other fixed costs.

Key Risks and Mitigation Strategies

The objective of our risk management activities is to recognise, assess and manage risks early on, and to implement appropriate measures to mitigate them. Risk management at Chemcon is a continuous process of analysing and managing all the risks posed to the business. Many risks are affecting the smooth functioning of the Company's operations. In the course of business, amongst others, Chemcon is exposed to several financial risks such as market risk, credit risk, liquidity risk and commodity price risk. These risks may be caused by the internal and external factors resulting into impairment of the assets of the Company causing adverse influence on the achievement of the Company's strategies, operational and financial objectives, earning capacity and financial position.

Chemcon has formulated an appropriate policy and established a risk management framework, the objectives of which are:

- (a) Embedding the management of risk as an integral part of the business processes
- (b) Establishing an effective system of risk identification, analysis, evaluation and treatment within all areas and levels of the Company
- (c) Avoiding exposure to significant financial loss
- (d) Contributing to the achievement of the Company's objectives; and
- (e) Accessing the benefits and cost of implementation of available options and controls to manage risk

Commodity price risk

Chemcon is exposed to the foreign currency risk from transactions. Transactional exposures are arising from the transactions entered into foreign currency. The management keeps a close watch on the maturity of the financial assets in foreign currency and payment obligations of the financial liabilities.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates. Further, the Company's investments in deposits are with banks and electricity authorities and therefore do not expose the Company to significant interest rates risk. Chemcon's variable rate borrowing is subject to interest rate risk. However, the management considers the impact of fair value interest rate risk on variable rate borrowings to be immaterial.

Cautionary Statement

Statements in the Directors' Report, Management Discussion and Analysis or elsewhere in this Annual Report, are 'forward-looking' including, but without limitation, statements relating to the implementation of strategic initiatives and other statements relating to Chemcon's future business developments and economic performance. While these forward-looking statements indicate our assessment and future expectations concerning the development of our business, a number of risks, uncertainties and other unknown factors could cause actual developments and results to differ materially from our expectations. These factors include, but are not limited to, general market, macroeconomic, Governmental and regulatory trends, movements in currency exchange and interest rates, competitive pressures, technological developments, changes in the financial conditions of third parties dealing with us, legislative developments, and other key factors that could affect our business and financial performance. Chemcon undertakes no obligation to publicly revise any forward-looking statements to reflect future/likely events

Credit risk

Credit risk refers to the risks that arise on default by the counterparty on its contractual obligation resulting into financial loss to the Company. Chemcon may carry this risk on trade and other receivables, liquid assets and some of the non-current financial assets. In case of trade receivables, the Company has framed an appropriate policy for extending credits period and limit to each customer based on their profile, financial position and their external rating etc. The collections of trade dues are strictly monitored. The credit risk on cash and cash equivalent, investment in fixed deposits and deposits are insignificant as counterparties are banks with high credit ratings assigned by the trading agencies of international repute.

Liquidity risk

Liquidity risk arises when the Company is unable to meet its short-term financial obligations as and when they fall due. Chemcon maintains adequate liquidity in the system to meet its financial liabilities on time. In addition to this, the Company's overall financial position is strong enough to meet any eventualities of liquidity tightness.

Human Resources

Workforce is crucial in maintaining quality and safety standards. Good relation with the workforce is critical in strengthening the Company's competitive position. As of March 31, 2021, Chemcon had 193 permanent employees on its rolls and 150 workers whom the Company engaged on a contractual basis.

Internal Control Systems & their Adequacy

Supply chain management

There are three major products manufactured and sold across more than 12 countries, resulting in a widespread supply chain network. Chemcon continually invests in initiatives for supply chain optimisation, capability building of its trade partners and the sales force. The constant observation and revision for all the manufacturing facilities help get better response. The key to an efficient supply chain management system is the use of technology solutions and predictive analytics for capturing accurate data and making proper decisions.

Information technology

Information technology provides continuous support to business operations by offering competitive advantages to the Company. A comprehensive ERP system has been implemented, which helps Chemcon increase its supply chain and provides accurate forecasts for sourcing and supply. The IT system and infrastructure are continuously examined and improved with appropriate and timely upgradation.

EXPLANATORY STATEMENT

(Pursuant to Section 102 of the Companies Act, 2013)

The following Explanatory Statement sets out all the material facts relating to the Item Nos. 3 to 6 of the accompanying Notice dated August 09, 2021.

Item No. 3:

In accordance with the provisions of Section 148 of the Companies Act, 2013 (the Act) and the Companies (Audit and Auditors) Rules, 2014 (the Rules), the Company is required to appoint a Cost Auditor to audit the cost records of the Company.

On the recommendation of the Audit Committee, the Board of Directors of the Company has approved the appointment of M/s Chetan Gandhi & Associates, Cost Accountants (Firm Registration No. 101341), Vadodara, as the Cost Auditor of the Company for the Financial Year 2021-22 at a remuneration of ₹ 50,000 (Rupees Fifty Thousand Only) Plus XBRL Conversion Charges, reimbursement of out of pocket expenses as per actual and applicable government taxes/levies.

In terms of the provisions of Section 148(3) of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to Cost Auditor is required to be ratified by members of the Company.

Accordingly, members are requested to consider and ratify the remuneration payable to Cost Auditors for the year 2021-22 as set out in the resolution for the aforesaid services.

The Board recommends the resolution set out in item No. 3 of this Notice for the approval of the members of the Company by way of an Ordinary Resolution.

None of the directors, key managerial personnel of the Company or their relatives are interested in the Resolution at Item No. 3 of the Notice.

Item No. 4 and 5:

The Board of directors at its meeting held on May 01, 2019, has re-appointed and designated Mr. Rajesh Chimanlal Gandhi as Whole-Time Director & Chief Financial Officer of the Company and re-appointed and designated Mr. Himanshu Prafulchandra Purohit as Whole-Time Director of the Company, for a period of 3 years i.e. from May 01, 2019 to April 30, 2022. The same was subsequently approved by the members of the Company at the AGM held on June 14, 2019 by a Special Resolution.

Further, considering the contribution of Mr. Rajesh Chimanlal Gandhi and Mr. Himanshu Prafulchandra Purohit and as per the recommendation of the Nomination and Remuneration Committee, the Board of Directors at its meeting held on November 6, 2020 approved the revision in the remuneration of Mr. Rajesh Chimanlal Gandhi and Mr. Himanshu Prafulchandra Purohit for their remaining tenure effective from October 01, 2020, subject to the approval of the members and on terms and conditions enumerated in the resolution.

(iv) Board Procedure

The Board meets at regular intervals to discuss and decide on the Company/business policy and strategy apart from other Board business. The Board Meetings (including Committee Meetings) of the Company are scheduled in advance to facilitate the Directors to plan their schedule and ensure meaningful participation in the meetings. However, in case of a special and urgent business need, the Board's approval is taken by passing resolution(s) by way of circulation, as permitted by law, which is noted in the subsequent Board Meeting.

Department heads communicate with the Company Secretary in advance with regard to matters requiring the approval of the Board to enable inclusion of the same in the agenda for the Board Meetings. The detailed agenda as approved by the Chairman together with the relevant attachments are circulated amongst the Directors in advance. Where it is not practicable to circulate any document in advance or if the agenda is of a confidential nature, the same is tabled at the meeting. In special and exceptional circumstances, consideration of additional or supplementary items is taken up with the approval of chairman and majority of the Directors.

In addition to above, the Company places all the required information before the Board from time to time in compliance with Regulation 17(7) and Part A of Schedule II of the Listing Regulations.

The draft minutes of the proceedings of the meetings of the Board/Committee(s) are circulated to all the members of the Board or Committee for their perusal within the stipulated time prescribed by Secretarial Standard on meeting of the Board of Directors. Comments, if any, received from the Directors are incorporated in the minutes in consultation with the Chairman. The minutes are approved by the members of the Board/Committee(s) prior to the next meeting. The signed minutes are circulated to all the members of the Board or the Committee with the stipulated time prescribed by Secretarial Standard on meeting of the Board of Directors.

(v) Independent Directors

The Independent Directors of the Company have been appointed in terms of requirements of the Act and Listing Regulations. The selection for appointment of Independent Directors on the Board is considered by the Nomination and Remuneration Committee. The Committee, inter alia, considers qualification, positive attributes, area of expertise and number of directorships and memberships held in various committees of other companies by such person and recommend the same to the Board. The Board considers the Committee's recommendation and takes appropriate decision.

Based on the disclosures received from the Independent Directors, the Board of Directors of the Company confirms that the Independent Directors fulfill the conditions specified in the SEBI Listing Regulations and are Independent of the management. Also, none of the Independent Directors of the Company have resigned before the expiry of his/her tenure.

Corporate Governance Report (Contd.)

ANNEXURE - I

DIVIDEND DISTRIBUTION POLICY

PREAMBLE

The SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") require the top 1000 listed companies, based on market capitalisation as on March 31 of every financial year, to disclose a Dividend Distribution Policy in the annual report and on the corporate website.

The Board of Directors ("Board") of Chemcon Speciality Chemicals Limited ("Company") has adopted this Dividend Distribution Policy ("Policy") to comply with the Listing Regulations.

The Company currently has only one class of shares, i.e. equity, for which this Policy is applicable. The Policy is subject to review if and when the Company issues different classes of shares.

DIVIDEND DISTRIBUTION PHILOSOPHY

The Company is deeply committed to driving superior value creation for all its stakeholders'. The Company's focus will continue to be on the sustainable returns, through an appropriate capital strategy for both medium term and longer term value creation. Accordingly, the Board would continue to adopt a progressive and dynamic dividend policy, ensuring the immediate as well as long term needs of the business.

DIVIDEND

Dividend represents the profit of the Company, which is distributed to shareholders in proportion to the amount of the paid-up shares they hold. Dividend includes Interim Dividend.

CIRCUMSTANCES UNDER WHICH SHAREHOLDERS MAY OR MAY NOT EXPECT DIVIDEND

The shareholders of the Company may not expect dividend in the following circumstances, subject to the discretion of the Board:

- i. In the event of a growth opportunity where the Company may be required to allocate a significant amount of capital.
- ii. In the event of higher working capital requirement for business operations or otherwise.
- iii. When Company's liquidity is jeopardised for any reason, impairing its ability to pay the dividend.
- iv. In the event of loss or inadequacy of profits.

The Board of Directors of the Company may not declare or recommend dividend for a particular period if it is of the view that it would be prudent to conserve capital for the then ongoing or planned business expansion or other factors which may be considered by the Board.

The Company will take a decision on the dividend distribution keeping all external and internal factors in view and duly adopting a judicious balance between directly rewarding the shareholders through dividend declaration on the one hand and increasing shareholder's wealth in future through appropriate retention of projects and its realisation for sustainable growth, on the other.

INTERIM AND FINAL DIVIDEND

The Board may declare one or more Interim Dividends during the year. Additionally, the Board may recommend Final Dividend for the approval of the shareholders at the Annual General Meeting. The date of the Board meeting in which the Dividend proposal will be considered, shall be intimated to the stock exchanges and post board meeting, the outcome of the meeting shall also be provided to the stock exchanges, as required under the Listing Regulations.

FINANCIAL PARAMETERS AND OTHER INTERNAL AND EXTERNAL FACTORS THAT WOULD BE CONSIDERED FOR DECLARATION OF DIVIDEND

- Distributable surplus available with the Company;
- Company's liquidity position and future cash flow needs;
- Track record of dividend distribution of the Company;
- Dividend payout ratios of the comparable companies;

Corporate Governance Report (Contd.)

- Prevailing taxation policy or any amendments expected thereof, with respect to dividend distribution;
- Capital expenditure requirements considering the expansion and acquisition opportunities;
- Cost and availability of alternative sources of financing;
- Stipulations / covenants of loan agreements;
- Macroeconomic and business conditions in general; and
- Any other relevant factors that the Board may deem fit to consider before recommending / declaring Dividend.

UTILISATION OF RETAINED EARNINGS

Subject to the applicable provisions, the retained earnings of the Company shall be applied for:

- Funding inorganic and organic growth needs including working capital, capital expenditure, repayment of debt, etc.;
- Buyback of shares subject to applicable limits;
- Payment of dividend in future years;
- Issue of Bonus Shares; and
- Any other permissible purpose

Modification of the Policy

The Board is authorised to change/amend this Policy from time to time at its sole discretion, as it may deem fit, and/or in pursuance of any amendments made in the Act, the Listing Regulations, etc.

- A. We have reviewed the financial statements and the cash flow statement for the Financial Year ended March 31, 2021 and to the best of our knowledge and belief:
- (1) These statements do not contain any materially untrue statement or omit any material fact or contain statements that might be misleading;
 - (2) These statements together present a true and fair view of the Company's affairs and are in compliance with existing accounting standards, applicable laws and regulations.
- B. There are, to the best of our knowledge and belief, no transactions entered into by the Company during the year which are fraudulent, illegal or violative of the Company's code of conduct.
- C. We accept responsibility for establishing and maintaining internal controls for financial reporting and we have evaluated the effectiveness of internal control systems of the Company pertaining to financial reporting and we have disclosed to the auditors and the audit committee, deficiencies in the design or operation of such internal controls, if any, of which we are aware and the steps we have taken or propose to take to rectify these deficiencies.
- D. We have indicated to the auditors and the Audit committee –
- (1) significant changes in internal control over financial reporting during the year;
 - (2) significant changes in accounting policies during the year and that the same have been disclosed in the notes to the financial statements; and
 - (3) instances of significant fraud of which we have become aware and the involvement therein, if any, of the management or an employee having a significant role in the Company's internal control system over financial reporting.

Independent Auditor's Report

To the Members of

Chemcon Speciality Chemicals Limited

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the accompanying financial statements of **Chemcon Speciality Chemicals Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended and notes to the financial statements including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, and total comprehensive income (comprising of profit and other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of these financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to be communicated in our report.

Information Other than the Financial Statements and Auditors' Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Management Discussion and Analysis/Business Responsibility Report/Corporate Governance Report and Shareholder's Information but does not include the financial statements and our auditors' report thereon. The above-referred information is expected to be made available to us after the date of this audit report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions necessitated by the circumstances & the applicable laws and regulations.

Independent Auditor's Report (Contd.)

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent Auditor's Report (Contd.)

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Annexure A to the Independent Auditor's Report

(referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date to the members of Chemcon Speciality Chemicals Limited)

- i. (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular program of physical verification of fixed assets which, in our opinion is reasonable. The assets which were to be covered as per the said program have been physically verified by the management during the year. In our opinion and According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties included under Property plant and equipment are held in the name of the Company.
- ii. The Inventories except for goods-in-transit have been physically verified by the management during the year and in our opinion, the frequency of verification is reasonable. As explained to us, there were no material discrepancies on physical verification of inventory as compared to the book records.
- iii. The Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013 and therefore, reporting under clause (iii) (a) to clause (iii) (c) of the Order is not applicable to the Company.
- iv. The Company has not granted any loans, made any investments, or provided any guarantees or security to which provisions of section 185 and 186 of the Act apply and therefore, reporting under clause (iv) of the Order is not applicable to the Company.
- v. According to the information and explanations given to us, the Company has not accepted any deposits during the year from the public within the meaning of provisions of section 73 to 76 of the Act, and the rules framed thereunder or under the directives issued by the Reserve Bank of India and therefore, reporting under clause (v) of the Order is not applicable to the Company.
- vi. We have broadly reviewed the books of account maintained by the Company pursuant to the order of the Central Government for maintenance of cost records under section 148(1) of the Companies Act, 2013 and are of the opinion that prima facie the prescribed records have been made and maintained. We have, however, not made a detailed examination of the records with a view to determining whether they are accurate or complete.
- vii. (a) In our opinion and according to the information and explanations given to us, the Company has been regular in depositing with appropriate authorities undisputed statutory dues, including provident fund, employee's state insurance, income-tax, Goods and Services tax, duty of customs, duty of excise, cess and any other statutory dues applicable to it. Further, no undisputed amounts payable in respect of provident fund, employee's state insurance, income-tax, Goods and Services tax, duty of customs, duty of excise, cess and any other statutory dues were in arrears as at 31st March 2021 for a period of more than six months from the date they become payable.
- (b) According to the information and explanations given to us, there are no disputed dues in respect of income tax, value added tax, sales tax, duty of customs, duty of excise and Goods and services tax which have not been deposited.
- viii. In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to banks and financial institutions. The company has not taken any loans from Government and has not issued any debentures.
- ix. In our opinion and according to the information and explanations given to us, moneys raised by way of initial public offer (other than amounts temporarily invested pending utilisation of the funds for the stated use) and term loans were prima facie applied for the purposes for which those were raised. The Company has not raised any money by way of further public offer (including debt instruments).

Annexure A to the Independent Auditor's Report (Contd.)

- x. To the best of our knowledge and according to information and explanations given to us, no fraud by the company or on the Company by its officers or employees has been noticed or reported during the year.
- xi. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has paid managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.
- xii. In our opinion, the Company is not a Nidhi company and therefore, reporting under clause (xii) of the Order is not applicable to the Company.
- xiii. In our opinion and according to the information and explanations given to us, transactions with the related parties are in compliance with sections 177 and 188 of the Act where applicable and the details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- xiv. According to the information and explanations given to us and based on our examination of the records, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year and therefore, reporting under clause (xiv) of the Order is not applicable to the Company.
- xv. In our opinion and according to the information and explanations given to us, the Company has not entered into non-cash transactions with directors or persons connected with him. Accordingly, reporting under clause (xv) of the Order are not applicable to the Company.

Annexure B to the Independent Auditor's Report

(referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date to the members of Chemcon Speciality Chemicals Limited)

REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT").

We have audited the internal financial controls with reference to financial statements of **CHEMCON SPECIALITY CHEMICALS LIMITED** ("the Company") as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the, "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Annexure B to the Independent Auditor's Report (Contd.)

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has in all material respect, an adequate internal financial control system with reference to financial statements and such internal financial control with reference to financial statements were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering essential components of Internal control stated in the Guidance Note on audit of Internal Financial Control over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Financial Statements

For the year ended March 31, 2021

1. COMPANY INFORMATION

Chemcon Speciality Chemicals Limited (‘the Company’) is a Public limited company incorporated and domiciled in India. Its shares are listed on Bombay Stock Exchange and National Stock Exchange in India. The Company is registered with the ROC, Gujarat, Dadra and Nagar Haveli at Ahmedabad under having Corporate Identification number (CIN) U24231GJ1988PLC011652. The Registered office of the Company is located at Block No 355, Manjusar Kunpad Road Vill: Manjusar, Tal: Salvi Baroda Gujarat.

The company is in Pharmaceutical intermediates, Silanes and Oilfield Chemicals (Completion Fluids) Industry. The company is leading manufacturer of specialised chemicals, such as HMDS and CMIC which are predominantly used in the pharmaceuticals industry and inorganic bromides, predominantly used as completion fluids in the oilfield industry.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1. Basis of preparation and Statement of compliance

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 (the Act) read with Companies (Indian Accounting Standards) Rules and other relevant provisions of the Act and Rules thereunder, as amended from time to time.

The financial statements are prepared, on a historical cost basis except for certain assets and liabilities which are measured at fair value at the end of each reporting period; as explained in the accounting policies below. These accounting policies have been applied consistently over all periods presented in these financials statements.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

The Financial Statements are presented in Indian Rupees which is Company’s presentation and functional currency and all values are rounded to the nearest lac (up to two decimals) except when otherwise indicated

2.2. Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Notes to the Financial Statements

For the year ended March 31, 2021 (Contd.)

2.3. Property Plant and Equipment (PPE)

Property, Plant & Equipment (PPE) comprises of Tangible assets and Capital Work in progress. PPE are stated at cost, less accumulated depreciation and accumulated impairment losses, if any; until the date of the Balance Sheet. The cost of PPE comprises of its purchase price or its construction cost (net of eligible applicable tax credit, if any), any cost directly attributable to bring the asset into the location and condition necessary for it to be capable of operating in the manner intended by the management and decommissioning costs. Direct costs are capitalised until the asset is ready for use and includes borrowing cost capitalised in accordance with the Company's accounting policy.

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from its previously assessed standard of performance. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Depreciation of these PPE commences when the assets are ready for their intended use.

Freehold Land is not depreciated. Depreciation on PPE other than Land has been provided on Straight line method over the useful lives of the assets as per Schedule II to the Companies Act

Useful lives of each class of PPE as prescribed under Part C of Schedule II to the Companies Act, 2013:

Description	Years
Building other than Factory Building	60
Building Others (including temporary structure, etc.)	3
Factory Building	30
Plant & Machinery	15
Storage Tank	20
Laboratory Equipment	10
Computers	3
Factory Road	10
Electrical Installations and Equipment	10
Furniture and Fixtures	10
Office Equipment	5
Vehicles	8

The estimated useful lives and residual values are reviewed on an annual basis and if necessary, changes in estimates are accounted for prospectively.

Depreciation on additions/deletions to PPE during the year is provided for on a pro-rata basis with reference to the date of additions / deletions.

Depreciation on subsequent expenditure on PPE arising on account of capital improvement or other factors is provided for prospectively over the remaining useful life.

An item of PPE is de-recognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of PPE is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

2.4. Intangible Assets and Amortisation

Intangible assets with finite useful life acquired separately, are recognised only if it is probable that future economic benefits that are attributable to the assets will flow to the enterprise and the cost of assets can be measured reliably. The intangible assets are recorded at cost and are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

Notes to the Financial Statements

For the year ended March 31, 2021 (Contd.)

Intangible assets including Computer software are amortised on straight-line basis over a period of three years.

The estimated useful life is reviewed at the end of each reporting period and the effect of any changes in estimate is accounted for prospectively.

Intangible assets are derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset, and recognised in the Statement of Profit and Loss when the asset is derecognised.

2.5. Non-Current Assets held for Sale

Non-current assets or disposal groups are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset or disposal group is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification as held for sale, and actions required to complete the plan of sale should indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets or disposal groups classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell.

Property, plant and equipment and intangible assets are not depreciated or amortised once classified as held for sale.

The Company classifies Non-Current Assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use of the assets and actions required to complete such sale indicate that it is unlikely that significant changes to the plan to sell will be made or that the decision to sell will be withdrawn. Also, such assets are classified as held for sale only if the management expects to complete the sale within one year from the date of classification.

Non-current assets or disposal groups classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell.

2.6. Impairment of tangible assets and intangible assets

The Company reviews at each reporting period whether there is any indication that an asset may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit & Loss. If at the reporting period, there is an indication that there is change in the previously assessed impairment loss, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

An assessment is made at the end of each reporting period to see if there are any indications that impairment losses recognised earlier may no longer exist or may have decreased. The impairment loss is reversed, if there has been a change in the estimates used to determine the asset's recoverable amount since the previous impairment loss was recognised. If it is so, the carrying amount of the asset is increased to the lower of its recoverable amount and the carrying amount that have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. After a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life. Reversals of Impairment loss are recognised in the Statement of Profit and Loss.

Notes to the Financial Statements

For the year ended March 31, 2021 (Contd.)

2.7. Inventories

The inventories are valued at cost or net realisable value whichever is lower. The basis of determining the value of each class of inventory is as follows:

Inventories	Cost Formula
Raw material	First in first out basis
Raw Material (Goods in transit)	At invoice value
Work in Progress	Raw material, labour and appropriate proportion of manufacturing expenses and overheads as per stage of completion.
Finished Goods (Including in Transit)	Raw material, labour and appropriate proportion of manufacturing expenses and overheads.
Stores, spares, packing materials	First in first out basis

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

The net realisable value of work-in-progress is determined with reference to the selling prices of related finished products. Raw materials and other supplies held for use in production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

2.8. Revenue recognition

The Company earns revenue primarily from sale of products and sale of services.

Sale of Products and Services

Revenues are recognised when the Company satisfies the performance obligation by transferring a promised product or service to a customer. A product is transferred when the customer obtains control of that product, which is at the point of transfer of custody to customers where usually the title is passed, provided that the contract price is fixed or determinable and collectability of the receivable is reasonably assured.

Revenue is measured at the transaction price of the consideration received or receivable duly adjusted for variable consideration and represents amounts receivable for goods and services provided in the normal course of business, net off Goods and Services Tax (GST), etc. Any retrospective revision in prices is accounted for in the year of such revision.

Interest Income:

Interest on investments is booked on a time proportion basis taking into account the amounts invested and the rate of interest.

Export Incentives and Other Income:

Export Incentives and Other Income is recognised on accrual basis except when realisation of such income is uncertain.

Insurance Claim:

Insurance and other claims are recognised only when it is reasonably certain that the ultimate collection will be made.

2.9. Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company as a Lessee:

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

At the date of commencement of the lease, the company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-

Notes to the Financial Statements

For the year ended March 31, 2021 (Contd.)

term leases) and low value leases. For these short-term and low value leases, the company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

2.10. Foreign Currency Transactions

The functional currency of the Company is Indian Rupees which represents the currency of the primary economic environment in which the Company operates.

Transactions in currencies other than the Company's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated using closing exchange rate prevailing on the last day of the reporting period.

Exchange differences on monetary items are recognised in the Statement of Profit and Loss in the period in which they arise.

Non-monetary items denominated in foreign currency, (such as PPE, capital / revenue advances other than expected to be settled in cash etc.) are recorded at the exchange rate prevailing on the date of the transaction, other than those measured at fair value.

2.11. Employee Benefits

Short-term employee Benefits

Short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised, undiscounted, during the period the employee renders services. These benefits include salary, wages, bonus, performance incentives etc.

Post-Employment Benefits and Other Long Term Employee Benefits

Defined contribution plans

Contributions to defined contribution schemes such as provident fund, superannuation scheme, employee pension scheme etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

Notes to the Financial Statements

For the year ended March 31, 2021 (Contd.)

Defined benefit plans

The liabilities towards defined benefit schemes are determined using the Projected Unit Credit method. Actuarial valuations under the Projected Unit Credit method are carried out at the balance sheet date. Actuarial gains and losses are recognised in the Statement of Profit and Loss in the period of occurrence of such gains and losses. Past service cost is recognised immediately to the extent that the benefits are already vested and otherwise it is amortised on straight-line basis over the remaining average period until the benefits become vested.

The retirement benefit obligation recognised in the balance sheet represents the present value of the defined benefit obligation as reduced by plan assets.

Other long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as an actuarially determined liability at present value of the defined benefit obligation at the balance sheet date.

Remeasurements:

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling (excluding amounts included in net interest on the net defined benefit liability) and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through Other Comprehensive Income (OCI) in the period in which it occurs. Remeasurements are not reclassified to profit or loss in subsequent periods. Remeasurements in respect of other long-term benefits are recognised in the Statement of Profit and Loss.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the Statement of Profit and Loss:

- Service cost comprising current service cost, past-service cost, gains and losses on curtailments and nonroutine settlements; and
- Net interest expense or income
- Past service cost is recognised in profit or loss on the earlier of:
 - The date of the plan amendment or curtailment, and
 - The date that the Company recognises related restructuring cost

2.12. Taxes on Income

Income tax expense represents the sum of the current tax and deferred tax.

(i) Current tax

The tax currently payable is based on taxable profit for the year.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

(ii) Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilised.

Notes to the Financial Statements

For the year ended March 31, 2021 (Contd.)

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognised as deferred tax asset in the Balance sheet when the asset can be measured reliably, and it is probable that the future economic benefit associated with asset will be realised.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(iii) **Current and deferred tax expense for the year / period**

Current and deferred tax expense is recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.13. Borrowing Costs

Borrowing costs are interest and ancillary costs incurred in connection with the arrangement of borrowings.

General and specific borrowing costs attributable to acquisition and construction of qualifying assets is added to the cost of the assets upto the date the asset is ready for its intended use. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted. All other borrowing costs are recognised in the Statement of Profit and Loss in the period in which they are incurred.

2.14. Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

Contingent assets are disclosed in the Financial Statements by way of notes to accounts when an inflow of economic benefits is probable.

Contingent liabilities are disclosed in the Financial Statements by way of notes to accounts, unless possibility of an outflow of resources embodying economic benefit is remote.

2.15. Financial Instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. The transaction costs directly attributable to the acquisition of financial assets and financial liabilities at fair value through profit and loss are immediately recognised in the statement of profit and loss.

Notes to the Financial Statements

For the year ended March 31, 2021 (Contd.)

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts future cash receipts or payments through the expected life of the financial instrument, or where appropriate, a shorter period.

(i) Financial assets

Cash and bank balances

Cash and bank balances consist of:

- Cash and cash equivalents - which includes cash in hand, deposits held at call with banks and other short-term deposits which are readily convertible into known amounts of cash, are subject to an insignificant risk of change in value and have maturities of less than one year from the date of such deposits. These balances with banks are unrestricted for withdrawal and usage.
- Other bank balances - which includes balances and deposits with banks that are restricted for withdrawal and usage.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets measured at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows or to sell these financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition.

Impairment of financial assets

The Company assesses at each balance sheet date whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to 12 month expected credit losses or at an amount equal to lifetime expected losses, if the credit risk on the financial asset has increased significantly since initial recognition.

De-recognition of financial assets

The Company de-recognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in statement of profit and loss.

Notes to the Financial Statements

For the year ended March 31, 2021 (Contd.)

(ii) Financial liabilities and equity instruments

Classification as debt or equity

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs, if any.

Financial Liabilities

Trade and other payables are initially measured at fair value, net of directly attributable costs, and are subsequently measured at amortised cost, using the effective interest rate method where the time value of money is significant. Interest bearing issued debt are initially measured at fair value and are subsequently measured at amortised cost using the effective interest rate method.

De-recognition of financial liabilities

The Company de-recognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is included in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously

2.16. Earnings per share

Basic earnings per share are computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving the basic earnings per share and the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

2.17. Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows are segregated into operating, investing and financing activities.

2.18. Cash And Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at bank and in hand and short-term deposits, which are subject to insignificant risk of changes in value.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents consists of cash and short-term deposit, as defined above.

2.19. Segment reporting

Operating segments are identified and reported taking into account the different risks and returns, the organisation structure and the internal reporting systems.

2.20. Current / non current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

Notes to the Financial Statements

For the year ended March 31, 2021 (Contd.)

All other assets are classified as non-current.

A liability is current when:

- It is Expected to be settled in normal operating cycle
- It is Held primarily for the purpose of trading
- is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The company classifies all other liabilities as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash Equivalents. The Company has identified twelve months as its operating cycle.

2.21. Critical accounting judgements, assumptions and Key sources of estimation uncertainty:

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities at the date of the financial statements. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Key source of judgments, assumptions and estimates in the preparation of the Financial Statements which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are in respect of useful lives of Property, Plant and Equipment, impairment, employee benefit obligations, provisions, provision for income tax, measurement of deferred tax assets and contingent assets & liabilities.

2.22. Critical judgments in applying accounting policies

The following are the critical judgements, apart from those involving estimations (Refer note 3.2), that the Management have made in the process of applying the Company's accounting policies and that have the significant effect on the amounts recognised in the Financial Statements.

a. **Determining whether an arrangement contain leases and classification of leases**

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

b. **Evaluation of indicators for impairment of Property, Plant and Equipment**

The evaluation of applicability of indicators of impairment of assets requires assessment of external factors (significant decline in asset's value, significant changes in the technological, market, economic or legal environment, market interest rates etc.) and internal factors (obsolescence or physical damage of an asset, poor economic performance of the asset etc.) which could result in significant change in recoverable amount of the Property, Plant and Equipment.

2.23. Key sources of estimates and assumptions

Information about estimates and assumptions that have the significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may differ from these estimates.

Notes to the Financial Statements

For the year ended March 31, 2021 (Contd.)

a. **Defined benefit obligation (DBO)**

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

b. **Contingent Liabilities and Assets**

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Company, including legal, contractor, land access and other claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgment and the use of estimates regarding the outcome of future events.

c. **Impairment of non-financial assets**

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

d. **Allowance for impairment of trade receivables**

The expected credit loss is mainly based on the ageing of the receivable balances and historical experience. The receivables are assessed on an individual basis assessed for impairment collectively, depending on their significance. Moreover, trade receivables are written off on a case-to-case basis if deemed not to be collectible on the assessment of the underlying facts and circumstances.

32.2 Defined benefit plans

The Company has defined benefit plans that provide gratuity benefit. It is governed by the Payment of Gratuity Act, 1972. Under the Gratuity Act, employees are entitled to specific benefit at the time of retirement or termination of the employment on completion of five years or death while in employment. The level of benefit provided depends on the member's length of service and salary at the time of retirement/termination age. The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out as at March 31, 2021 by a member firm of the Institute of Actuaries of India. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method. Each year, the Company reviews the level of funding in gratuity fund. The Company decides its contribution based on the results of its review.

(₹ in lacs)

Particulars	As at March 31, 2021	As at March 31, 2020
VII Return on Plan Assets		
Expected return on plan assets	3.74	3.45
Actuarial (loss)/gain	(0.24)	(0.50)
Actuarial return on plan assets	3.50	2.95
VIII The major categories of plan assets as a percentage of total plan assets		
Insurer Managed Funds	100%	100%
IX Principal actuarial assumptions		
Mortality	Indian Assured Lives Mortality (2012-14) Ult.	Indian Assured Lives Mortality (2012-14) Ult.
Discount rate	6.50%	6.80%
Attrition Rate	1 to 5%	1 to 5%
Salary Escalation Rate	7.00%	7.00%

The estimates of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Employee benefit plan typically exposes the company to actuarial risks such as: investment risk, interest risk, longevity risk and salary risk.

Investment Risk

The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to the market yields on government bonds denominated in Indian Rupees. If the actual return on plan asset is below this rate, it will create a plan deficit.

Interest Risk

A decrease in the bond interest rate will increase the plan liability. However, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity Risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary Risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and employee turnover.

(B) Leave encashment

The leave obligations cover the Company's liability for earned leaves. The Company does not have an unconditional right to defer settlement for the obligation shown as current provision balance below. However based on past experience, the Company does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months, therefore based on the independent actuarial report, only a certain amount of provision has been presented as current and remaining as non-current.

35. CAPITAL MANAGEMENT

The primary objective of the company's capital management is to maintain optimum capital structure to reduce cost of capital and to maximise the shareholder value.

The Company manages its capital to ensure that the Company will be able to continue as going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance.

The Company determines the amount of capital required on the basis of annual planning and budgeting and its plan for working capital and long-term borrowings. The funding requirements are met through equity, internal accruals and a combination of both long-term and short-term borrowings.

There has been no transfers between level 1, level 2 and level 3 for the year ended March 31, 2021 and year March 31, 2020.

The short-term financial assets and liabilities are stated at amortised cost which is approximately equal to their fair value.

36.2 FINANCIAL RISKS MANAGEMENT

In the course of its business, the Company is exposed primarily to fluctuations in foreign currency exchange rates, interest rates, equity prices, liquidity and credit risk, which may adversely impact the fair value of its financial instruments.

These risks may be caused by the internal and external factors resulting into impairment of the assets of the Company causing adverse influence on the achievement of Company's strategies, operational and financial objectives, earning capacity and financial position.

The Company has a risk management policy which not only covers the foreign exchange risks but also other risks associated with the financial assets and liabilities such as interest rate risks and credit risks. The risk management policy is approved by the board of directors. The risk management framework aims to:

- Create a stable business planning environment by reducing the impact of currency and interest rate fluctuations on the Company's business plan.
- Achieve greater predictability to earnings by determining the financial value of the expected earnings in advance.

Notes to the Financial Statements

For the year ended March 31, 2021 (Contd.)

(A) MARKET RISK

Market risk is the risk that changes in market prices- such as foreign exchange rates, interest rates and equity prices- will affect the Company's income or the value of its holdings of financial instrument. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimising the return. The major components of market risk are foreign currency risk, interest rate risk and price risk.

(1) FOREIGN CURRENCY RISK

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise.

The carrying amount of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

(₹ in lacs)		
Foreign Currency Exposure	As at March 31, 2021	As at March 31, 2020
Assets	700.44	2,106.34
Liabilities	619.48	227.75

Foreign Currency Sensitivity:

The Company is principally exposed to foreign currency risk against USD. Sensitivity of profit or loss arises mainly from USD denominated receivables and payables.

As per management's assessment of reasonable possible changes in the exchange rate of +/- 5% between USD-INR, EURO-INR currency pair, sensitivity of profit or loss only on outstanding foreign currency denominated monetary items at the period end is presented below:

(₹ in lacs)		
Foreign Currency Exposure	As at March 31, 2021	As at March 31, 2020
Assets :		
Weakening of INR by 5%	35.02	105.32
Strengthening of INR by 5%	(35.02)	(105.32)
Liabilities :		
Weakening of INR by 5%	(30.97)	(11.39)
Strengthening of INR by 5%	30.97	11.39

(2) INTEREST RATE RISK

Interest rate risk is measured by using the cash flow sensitivity for changes in variable interest rates. Any movement in the reference rates could have an impact on the Company's cash flows as well as costs.

The Company is subject to variable interest rates on some of its interest bearing liabilities. The Company's interest rate exposure is mainly related to debt obligations. The Company also uses a mix of interest rate sensitive financial instruments to manage the liquidity and fund requirements for its day to day operations like short-term loans.

As at March 31, 2020, financial liability of ₹ 2866.88 Lacs, was subject to variable interest rates. Increase/decrease of 100 basis points in interest rates at the balance sheet date would result in decrease/increase in profit/(loss) before tax of ₹ 28.67 Lacs for the year ended March 31, 2020.

The model assumes that interest rate changes are instantaneous parallel shifts in the yield curve. Although some assets and liabilities may have similar maturities or periods to re-pricing, these may not react correspondingly to changes in market interest rates. Also, the interest rates on some types of assets and liabilities may fluctuate with changes in market interest rates, while interest rates on other types of assets may change with a lag.

Notes to the Financial Statements

For the year ended March 31, 2021 (Contd.)

The risk estimates provided assume a parallel shift of 100 basis points interest rate across all yield curves. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the year.

This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

(Note: The impact is indicated on the profit/(loss) before tax basis).

(B) CREDIT RISK

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults. The Company's exposure and wherever appropriate, the credit ratings of its counterparties are continuously monitored and spread amongst various counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the management of the Company. Financial instruments that are subject to concentrations of credit risk, principally consist of balance with banks, trade receivables and loans and advances.

The Company has concentration of credit risk due to the fact that the Company has significant receivables from two customers which is reputed and creditworthy undertaking.

Balances with banks were not past due or impaired as at the year end. In other financial assets that are not past dues and not impaired, there were no indication of default in repayment as at the year end.

As at March 31, 2021, the Company had 5 customers (March 31, 2020: 5 customers) having outstanding more than 5% of total trade receivables that accounted for approximately 62.79% (March 31, 2020: 64.39%) of total trade receivables outstanding.

(1) TRADE RECEIVABLES:

Concentration of credit risk with respect to trade receivables are limited, due to the Company's customer base being large and diverse. All trade receivables are reviewed and assessed for default on a quarterly basis.

Our historical experience of collecting receivables indicate a low credit risk. Hence, trade receivables are considered to be a single class of financial assets.

(C) LIQUIDITY RISK

The Company manages liquidity risk by maintaining sufficient cash and cash equivalents and availability of funding through an adequate amount of committed credit facilities to meet the obligations when due. Management monitors rolling forecasts of liquidity position and cash and cash equivalents on the basis of expected cash flows. In addition, liquidity management also involves projecting cash flows considering level of liquid assets necessary to meet obligations by matching the maturity profiles of financial assets & liabilities and monitoring balance sheet liquidity ratios.

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The information included in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The contractual maturity is based on the earliest date on which the Company may be required to pay.
